Career Objective

Detail-oriented and results-driven engineering professional with experience in system monitoring, troubleshooting, and operational support, seeking to transition into a production environment. Skilled in data analysis, process monitoring, and performance optimization, I aim to contribute to efficient plant operations and continuous improvement initiatives. With a strong foundation in maintaining system reliability and resolving operational issues, I am committed to supporting production efficiency, adhering to quality and safety standards, and delivering data-driven insights. I am eager to leverage my adaptability and problem-solving capabilities to add value in a dynamic manufacturing setting while continuing to grow technically and professionally.

Professional Experience

1. Senior Engineer (September 2023 - Present)

Infozillion Teletech BD.

Hosaf High Tower, 9, Mohakhali C/A, Dhaka.

Currently employed as a Senior Engineer at Infozillion Teletech BD, where I am responsible for overseeing network performance and monitoring for specific conditions that may necessitate immediate attention. My role involves troubleshooting issues to prevent service degradation and ensure optimal network functionality.

2. Computer Operator (December 2020 – August 2023)
